

Dear Paul,

I wanted to write a letter of thanks and commendation to 'My Masterpiece'. We held our third exhibition with your company on March 30th 2016.

The excitement from the children was tenable as they went around the hall viewing their artwork. Each display board contained work across the year groups. This works well as it enables every piece to be viewed individually, and therefore is not easily compared with other pieces in the same class.

My Art coordinator led a staff meeting and ensured the exhibition offered the opportunity for staff to address National Curriculum skills and opportunity to explore a variety of art mediums. As a result the work was diverse and a very high quality. It was also child led and not copied from the old masters.

The pictures below capture the individual pleasure and mutual appreciation of the exhibition from our children. We are delighted that some of the money supports charity work, and that the prices are fair for parents who have many demands made on their purses to support school. Parents have expressed their delight in being able to purchase a framed piece of work from their child's Primary Years.

Many thanks.
